Over the past two years, the trust has carried out numerous service activities aimed at promoting health, community welfare, and social awareness. These include several notable and recognized initiatives that have had a meaningful impact on society. From organizing free health camps and awareness programs to supporting soldiers and devotees, the trust has worked tirelessly to serve the community. We have also conducted various outreach and educational programs to encourage healthy living and social responsibility. While these are some of the major highlights, the trust has undertaken many other valuable works throughout the period. Our commitment remains strong to continue serving humanity with dedication and compassion.

During the past two years, the trust has not received any external funding. All activities were carried out using the personal contributions of our trustees, and hence, no financial transactions were made through the trust account. Recently, we have initiated fundraising efforts and have received some contributions. We kindly request permission to continue the operations of the trust so that we can expand our service activities and reach more people in need.
